Choosing the right aerator made easy

Which model is the right one? **No problem, we will be pleased to help!**

Print out this PDF 100% (1:1) and simply follow the 3 steps below.

- 1.** Take the inner part out of the housing and put both pieces next to each other on the measurement grid in the left bottom corner. (red arrow)

Inner part

Housing

- 2.** Take three digital pictures
Picture 1: Housing and inner part from the side
Picture 2: Inner part from below
Picture 3: Inner part from the top

Picture 1

Picture 2

Picture 3

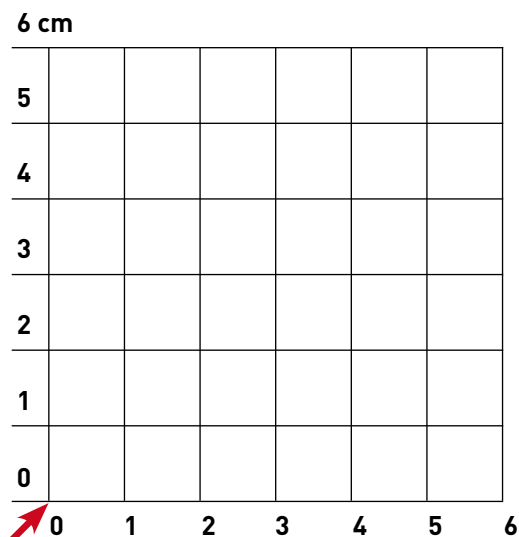

- 3.** Send an e-mail to smp@neoperl.net
Needless to say that your data will be treated as confidential.

Within 24 hours you will get an e-mail from us telling you what spare part matches your sanitary fittings.

If your aerator is not detachable, take a picture of it on your sanitary fittings together with a reference object such as a coin.
